## Project

---

### Client Overview:

#### ***Zurich: Farmers Insurance Group.***

Farmers Insurance Group of Companies is the country's third-largest insurer of both private Personal Lines passenger automobile and homeowners and umbrella insurance, and also provides a wide range of other insurance and financial services products. Farmers operate primarily in 41 states across the country through the efforts of approximately 20k employees and 15 million customers.

### Roles:

- My Role in the project was to understand the requirements of the client, provide technical assistance and resolution.
- As part of each Release cycle, the basic activities carried out are estimated analysis, Technical Design Meetings, code analysis, Development, unit testing, production migration and smoke testing.
- High client interaction with weekly status calls.
- Team's Subject Matter Expert for the Portal and Design Management.
- Team handling exposure during Client's peak time and have successfully delivered team set targets.
